SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

(Mark One)

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2022

OR

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number 001-09341

iCAD, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

98 Spit Brook Road, Suite 100, Nashua, NH
(Address of principal executive offices)

02-0377419
(I.R.S. Employer
Identification No.)

03062
(Zip Code)

(603) 882-5200
(Registrant's telephone number, including area code)

Not Applicable
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol(s)	Name of each exchange on which registered
Common Stock, \$0.01 par value	ICAD	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirement for the past 90 days. YES NO .

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). YES NO .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, an emerging growth company or a

smaller reporting company. See the definitions of “large accelerated filer”, “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large Accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act .

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) YES NO .

As of the close of business on May 10, 2022, there were 25,181,857 shares outstanding of the registrant’s Common Stock, \$0.01 par value.

Notes to Condensed Consolidated Financial Statements:

Note 1 – Organization and Business

Basis of Presentation

The accompanying condensed consolidated financial statements of iCAD, Inc. and its subsidiaries (together “iCAD” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”), which requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the reporting period and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. It is reasonably possible that changes may occur in the near term that would affect management’s estimates with respect to assets and liabilities. In the opinion of the Company’s management, these unaudited interim condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position of the Company at March 31, 2022, the results of operations of the Company for the three-month periods ended March 31, 2022 and 2021, cash flows of the Company for the three-month periods ended March 31, 2022 and 2021, and stockholders’ equity for the Company for the three-month periods ended March 31, 2022 and 2021.

Although the Company believes that the disclosures made in these interim financial statements are adequate to make the information presented not misleading, certain information normally included in the footnotes prepared in accordance with US GAAP has been omitted as permitted by the rules and regulations of the Securities and Exchange Commission (the “SEC”). The accompanying interim financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2021, filed with the SEC on March 29, 2022. The results for the three-month period ended March 31, 2022, are not necessarily indicative of the results that may be expected for the three-month period ended June 30, 2022, or any future period.

Principles of Consolidation and Business Segments

The consolidated financial statements include the accounts of iCAD, Inc. and its wholly owned subsidiaries: Xoft, Inc., Xoft Solutions, LLC, and iCAD France, LLC. All material inter-company transactions and balances have been eliminated in consolidation.

The Company reports the results of two segments: Cancer Detection (“Detection”) and Cancer Therapy (“Therapy”). The Detection segment consists of advanced image analysis and workflow products for the detection of cancer. The Therapy segment consists of radiation therapy (“Xoft”, “Axxent”) products for the treatment of certain cancers.

Risk and Uncertainty

On March 12, 2020, the World Health Organization declared COVID-19 to be a pandemic. In an effort to contain and mitigate the spread of the COVID-19 pandemic, the United States and most countries of the world have imposed some level of unprecedented restrictions on travel, and there have been business closures and a substantial reduction in economic activity in countries that have had significant outbreaks of COVID-19. As a provider of devices and services to the health care industry, the Company’s operations have been materially affected in all periods presented. Significant uncertainty remains as to the continuing impact of the COVID-19 pandemic on the Company’s operations and on the global economy. It is currently not possible to predict how long the pandemic will last or the time that it will take for economic activity to return to prior levels. The COVID-19 pandemic has resulted in significant financial market volatility and uncertainty. A continuing or worsening level of market disruption and volatility seen since the start of the pandemic will have an adverse effect on the Company’s ability to access capital, on the Company’s business, results of the Company’s operations and financial condition, and on the market price of the Company’s common stock. The Company’s results for the years ended December 31, 2021 and 2020, as well as all quarterly results beginning with the first quarter of 2020 through the first quarter of 2022, reflect a negative impact from the COVID-19 pandemic, including but not limited to healthcare customers and potential customers providing additional focus on COVID-19; pandemic-related public health impacts,

including significant shifts in workforce availability and priorities, on customer, supplier, and iCAD's business processes; and effects on healthcare customers and potential customers of pandemic related supply chain issues. The Company's quarterly results for the quarter ending June 30, 2022, and possibly future quarters, could reflect a continuing negative impact from the COVID-19 pandemic for similar or additional reasons.

Although the Company did not see any material impact to trade accounts receivable losses in the three-month period ended March 31, 2022, the Company's exposure may increase if its customers are adversely affected by changes in healthcare laws, coverage, and reimbursement, economic pressures or uncertainty associated with local or global economic recessions, disruption associated with the current COVID-19 pandemic, or other customer-specific factors. The Company has historically not experienced significant trade account receivable losses, but it is possible that there could be a material adverse impact from potential adjustments of the carrying amount of trade account receivables as clinical customers' cash flows are impacted by their response to the COVID-19 pandemic as well as public health considerations impacting their underlying businesses.

Economic, civil, military and political uncertainty may arise or increase in regions where the Company operates or derives revenue. Further, countries from which the Company derives revenue may experience military action and/or civil and political unrest; may be subject to government export controls, economic sanctions, embargoes, or trade restrictions; and experience currency, inflation, and interest rate uncertainties. For the fiscal year ended 2021, approximately 8.6% of the Company's total revenue and approximately 39.0% of the Company's export revenue was derived from customers located in Europe. In late February 2022, Russian military forces launched significant military action against Ukraine. Sustained conflict and disruption in the region is likely. The aggregate impact to Eastern Europe and Europe as a whole, as well as actions taken by other countries, including new and stricter sanctions by the United States, Canada, the United Kingdom, the European Union, and other countries and organizations against officials, individuals, regions, and industries in Russia, Belarus and Ukraine, and each country's potential response to such sanctions, tensions and military actions, is not knowable at this time, and could have a material adverse effect on the Company, its business and operations. Any such material adverse effect from the conflict and enhanced sanctions activity may disrupt the Company's sales to customers in the region. Prolonged unfavorable economic conditions or uncertainty may have an adverse effect on the Company's sales and profitability.

Recently Adopted Accounting Pronouncements

On January 1, 2022, the Company adopted ASU No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40)—Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU 2020-06"). The impact of adopting ASU 2020-06 had no impact on the Company's consolidated financial statements.

Recently Issued Accounting Standards

In June 2016, the Financial Accounting Standards Board (the "FASB") issued ASU 2016-13, "Financial Instruments—Credit Losses (Topic 326)" ("ASU 2016-13"), which requires the measurement and recognition of expected credit losses for financial assets held at amortized cost. ASU 2016-13 replaces the existing incurred loss impairment model with an expected loss model which requires the use of forward-looking information to calculate credit loss estimates. These changes will result in earlier recognition of credit losses. In November 2019, the FASB elected to defer the adoption date of ASU 2016-13 for public business entities that meet the definition of a smaller reporting company to fiscal years beginning after December 15, 2022. Early adoption of the guidance in ASU 2016-13 is permitted. The Company is currently evaluating the impact that the adoption of ASU 2016-13 will have on its consolidated financial statements.

Note 2 - Fair Value Measurements

The Company follows the provisions of FASB ASC Topic 820, “Fair Value Measurement and Disclosures” (“ASC 820”), which defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The Company applies the fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, which are the following:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
 - Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
 - Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value
- The assigned level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Money market funds included in cash and cash equivalents in the accompanying consolidated balance sheet are considered a Level 1 measurement as they are valued at quoted market prices in active markets.

The following table sets forth the Company’s assets which are measured at fair value on a recurring basis by level within the fair value hierarchy (in thousand):

	Fair Value Measurements (in thousands) as of March 31, 2022			
	Level 1	Level 2	Level 3	Total
Assets				
Money market accounts	\$ 24,235	—	—	\$ 24,235
Total Assets	<u>\$ 24,235</u>	<u>—</u>	<u>—</u>	<u>\$ 24,235</u>

	Fair Value Measurements (in thousands) as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Assets				
Money market accounts	\$ 30,573	—	—	\$ 30,573
Total Assets	<u>\$ 30,573</u>	<u>—</u>	<u>—</u>	<u>\$ 30,573</u>

There were no Level 3 instruments measured at fair value as of March 31, 2022 or December 31, 2021.

Note 3 - Revenue

Revenue Recognition

Revenue is recognized when a customer obtains control of promised goods or services. The amount of revenue recognized reflects the consideration which the Company expects to be entitled to receive in exchange for these goods or services and excludes any sales incentives or taxes collected from customers which are subsequently remitted to government authorities.

Disaggregation of Revenue

The following tables presents the Company's revenues disaggregated by major good or service line, timing of revenue recognition, and sales channel, reconciled to its reportable segments (in thousands).

	Three months ended March 31, 2022		
	Reportable Segments

Goods transferred at a point in time	\$ 4,161	\$ 2,104	\$ 6,265
Services transferred over time	1,558	821	2,379
	<u>\$ 5,719</u>	<u>\$ 2,925</u>	<u>\$ 8,644</u>
Sales Channels			
Direct sales force	\$ 3,875	\$ 674	\$ 4,549
OEM partners	1,844	—	1,844
Channel partners	—	2,251	2,251
	<u>\$ 5,719</u>	<u>\$ 2,925</u>	<u>\$ 8,644</u>

Products. Product revenue consists of sales of cancer detection systems and perpetual licenses and cancer therapy systems and cancer therapy applicators. The Company transfers control and recognizes a sale when the product is shipped from the manufacturing or warehousing facility to the customer.

Service. The Company sells service contracts in which the Company provides professional services including product installations, maintenance, training and service repairs, and in certain cases leases equipment to hospitals, imaging centers, radiological practices and radiation oncologists and treatment centers. The service contracts range from 12 months to 48 months. The Company typically receives payment at the inception of the contract and recognizes revenue on a straight-line basis over the term of the agreement.

Sources and Source Usage Agreements. Revenue from sources is recognized upon transfer of control to the customer. Revenue from source usage agreements is recognized on a straight-line basis over the term of the source agreement.

Disposable applicators. Revenue for the sale of disposable applicators is recognized upon the transfer of control to the customer.

Other. Other revenue consists primarily of miscellaneous products and services. The Company transfers control and recognizes a sale when the installation services are performed or when the Company ships the product from the Company’s manufacturing or warehouse facility to the customer.

Contract Balances

Contract liabilities are a component of deferred revenue, current contract assets are a component of prepaid and other assets and non-current contract assets are a component of other assets. The following table provides information about receivables, current and non-current contract assets, and contract liabilities from contracts with customers (in thousands).

	Balance at March 31, 2022	Balance at December 31, 2021
Receivables, which are included in ‘Trade accounts receivable’	\$ 10,309	\$ 8,891
Current contract assets, which are included in “Prepaid and other assets”	\$ 1,174	\$ 1,895
Non-current contract assets, which are included in “other assets”	\$ 49	\$ 844
Contract liabilities, which are included in “Deferred revenue”	\$ 6,336	\$ 6,093

Timing of revenue recognition may differ from timing of invoicing of customers. The Company records a receivable when revenue is recognized prior to receipt of cash payment and the Company has the unconditional right to such consideration, or unearned revenue when cash payments are received or due in advance of performance. For multi-year agreements, the Company generally invoices customers annually at the beginning of each annual service period.

The Company records net contract assets or contract liabilities on a contract-by-contract basis. The Company records a contract asset for unbilled revenue when the Company’s performance is in excess of amounts billed or billable. The Company classifies the net contract asset as either a current or non-current based on the expected timing of the Company’s right to bill under the terms of the contract. The current contract asset balance primarily relates to the net unbilled revenue balances with two significant customers, which the Company expects to be able to bill for within one year. The non-current contract asset balance consists of net unbilled revenue balances with one customer which the Company expects to be able to bill for in more than one year.

Changes in deferred revenue from contracts with customers were as follows (in thousands):

	Three Months Ended March 31, 2022
Balance at beginning of period	\$ 6,093
Deferral of revenue	2,940
Recognition of deferred revenue	(2,697)
Balance at end of period	\$ 6,336

The Company expects to recognize estimated revenues related to performance obligation that are unsatisfied (or partially satisfied) in the amounts of approximately \$5.9 million in 2022, \$2.2 million in 2023, \$1.3 million in 2024, and \$1.1 million in 2025.

Note 4 – Net Loss per Common Share

The Company's basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding for the period.

A summary of the Company's calculation of net loss per share is as follows (in thousands except per share amounts):

	Three Months Ended March 31,	
	2022	2021
Net loss	\$ (3,545)	\$ (1,643)
Shares used in the calculation of basic and diluted net loss per share	25,160	23,929
Diluted shares used in the calculation of net loss per share	25,160	23,929
Net loss per share—basic and diluted	\$ (0.14)	\$ (0.07)

The shares of the Company's common stock issuable upon the exercise of stock options and vesting of restricted stock that were excluded from the calculation of diluted net loss per share because their effect would have been antidilutive are as follows:

	As of March 31,	
	2022	2021
Stock options	2,894,449	2,246,776
Restricted stock	—	31,654
Total	2,894,449	2,278,430

Note 5 – Inventories

The Company values its inventory at the lower of cost or net realizable value. Cost includes materials, labor, and manufacturing overhead and is determined using the first-in, first-out (FIFO) method. On a quarterly basis, management reviews inventory quantities on hand and analyzes the provision for excess and obsolete inventory based primarily on product expiration dating and estimated sales forecast, which is based on sales history and anticipated future demand. Inventory consisted of the following (in thousands) and includes an inventory reserve of approximately \$0.3 million at March 31, 2022 and \$0.2 million at December 31, 2021.

	March 31, 2022	December 31, 2021
Raw materials	\$ 3,333	\$ 2,962
Work in process	504	173
Finished Goods	1,174	1,279
Inventory Gross	5,011	4,414
Inventory Reserve	(275)	(243)
Inventory Net	\$ 4,736	\$ 4,171

Note 6 - Goodwill

The Company tests goodwill for impairment on an annual basis and between annual tests if events and circumstances indicate it is more likely than not that the fair value of the reporting unit is less than its carrying value. There were no impairment indicators present as of March 31, 2022.

Factors the Company considers important, which could trigger an impairment of such asset, include the following:

- significant underperformance relative to historical or projected future operating results;
- significant changes in the manner or use of the assets or the strategy for the Company's overall business;
- significant negative industry or economic trends;
- significant decline in the Company's stock price for a sustained period; and
- a decline in the Company's market capitalization below net book value.

Note 7 – Long-lived Assets

The Company assesses long-lived assets for impairment if events and circumstances indicate it is more likely than not that the fair value of the asset group is less than its carrying value.

There is no set interval or frequency for recoverability evaluation. Rather, the determination of when, if at all, an asset (or asset group) is evaluated for recoverability is based on "events and circumstances." The following factors are examples of events or changes in circumstances that indicate the carrying amount of an asset (or asset group) may not be recoverable and thus is to be evaluated for recoverability.

- A significant decrease in the market price of a long-lived asset (or asset group);
- A significant adverse change in the extent or manner in which a long-lived asset (or asset group) is being used or in its physical condition;
- A significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset (or asset group), including an adverse action or assessment by a regulator;
- An accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset (or asset group); and
- A current operating period, or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset (or asset group).

The Company determined there were no such triggering events in the quarter ended March 31, 2022.

Note 8 – Lease Commitments

Per ASC 842, the Company determines if an arrangement contains a lease at inception. A lease is an operating or financing contract, or part of a contract, that conveys the right to control the use of an identified tangible asset for a period of time in exchange for consideration.

At lease inception, the Company recognizes a lease liability equal to the present value of the remaining lease payments, and a right of use asset equal to the lease liability, subject to certain adjustments, such as for lease incentives. In determining the present value of the lease payments, the Company uses its incremental borrowing rate, determined by estimating the Company's applicable, fully collateralized borrowing rate, with adjustment as appropriate for lease term. The lease term at the lease commencement date is determined based on the non-cancellable period for which the Company has the right to use the underlying asset, together with any periods covered by an extension option if the Company is reasonably certain to exercise that option.

Right-of-use assets and obligations for leases with an initial term of 12 months or less are considered short term and are a) not recognized in the consolidated balance sheet and b) recognized as an expense on a straight-line basis over the lease term. The Company does not sublease any of its leased assets to third parties and the Company's lease agreements do not contain any residual value guarantees or restrictive covenants. The Company has lessor agreements that contain lease and non-lease components, but the Company is accounting for the complete agreement under ASC 606 after determining that the non-lease component is the predominant component of these agreements.

ASC 842 includes a number of reassessment and re-measurement requirements for lessees based on certain triggering events or conditions. There were no impairment indicators identified during the three-month period ended March 31, 2022 that would require impairment testing of the Company's right-of-use assets.

Certain of the Company's leases include variable lease costs to reimburse the lessor for real estate tax and insurance expenses, and certain non-lease components that transfer a distinct service to the Company, such as common area maintenance services. The Company has elected to separate the accounting for lease components and non-lease components for real estate and equipment leases.

Components of Leases:

The Company has leases for office space and office equipment. The leases expire at various dates through 2024.

<u>Lease Cost</u>	<u>Classification</u>	<u>Three Months Ended March 31, 2022</u>
Operating lease cost—Right of Use Asset	Operating expenses	\$ 215
Operating lease cost—Variable	Operating expenses	61
Total		<u>\$ 276</u>

Other information related to leases was as follows (in thousands):

	<u>Three Months Ended March 31, 2022</u>
Cash paid from operating cash flows for operating leases	\$ 229
	<u>As of March 31, 2022</u>
Weighted-average remaining lease term of operating leases (in year)	1.02
Weighted-average discount rate for operating leases	5.5%

Maturity of the Company's lease liabilities as of March 31, 2022 was as follows (in thousands):

2022	701
2023	253
2024	16
Total lease payments	970
Less: imputed interest	(29)
Total lease liabilities	941
Less: current portion of lease liabilities	(887)
Long-term lease liabilities	<u>\$ 54</u>

Note 9 – Notes Payable

(a) Loan and Security Agreement – Western Alliance Bank

On March 30, 2020, the Company entered into a Loan and Security Agreement (the "Loan Agreement") with Western Alliance Bank (the "Bank") that provided an initial term loan ("Term Loan") facility of \$7.0 million and a \$5.0 million revolving line of credit. Obligations to the Bank under the Loan Agreement were secured by a first priority security interest in the Company's assets, except for certain permitted liens that have priority to the Bank's security interest by operation of law.

On April 27, 2021, the Company repaid its obligations in the aggregate amount of \$7,354,283 and terminated the Loan Agreement with the Bank, and the Company's collateral securing the facility was released. The Company accounted for this repayment and retirement as an extinguishment of the Loan Agreement. The Company recorded a loss on extinguishment of approximately \$386,000 at that time related to the repayment and retirement of the Loan Agreement. The loss on extinguishment was composed of approximately \$140,000 for a prepayment fee, \$122,000 for the unaccrued final payment, \$65,000 termination and other fees, and \$58,000 for the unamortized discount and other closing costs from origination of the loan.

The following amounts are included in interest expense related to the Loan Agreement in the Company's consolidated statement of operations for the three months ended March 31, 2022 and 2021 (in thousands):

	Three Months Ended March 31,	
	2022	2021
Cash interest expense	\$ —	\$ 92
Accrual of notes payable final payment	—	7
Amortization of debt costs	—	13
Total interest expense	<u>\$ —</u>	<u>\$ 112</u>

Note 10 – Stockholders Equity

(a) Financing Activity

On March 2, 2021, the Company entered into an underwriting agreement with Guggenheim Securities, LLC, as representative of the several underwriters thereto, in connection with an underwritten public offering of 1,393,738 shares of the Company's common stock at an offering price of \$18.00 per share. The Offering closed on March 5, 2021 for gross proceeds of approximately \$25.1 million and net proceeds of approximately \$23.2 million to the Company.

(b) Stock-Based Compensation

The Company granted options to purchase up to an aggregate of 675,000 shares of the Company's stock during the three months ended March 31, 2022. Options granted under the Company's stock incentive plans were valued utilizing the Black-Scholes model using the following assumptions and had the following fair values:

	Three Months Ended	
	March 31,	
	2022	2021
Average risk-free interest rate	1.46%	0.20%
Expected dividend yield	None	None
Expected life	3.5 years	3.5 years
Expected volatility	66.3% to 69.5%	66.0% to 66.0%
Weighted average exercise price	\$5.22	\$18.00
Weighted average fair value	\$2.56	\$8.37

The Company's stock-based compensation expense, including options and restricted stock by category is as follows (amounts in thousands):

	Three Months Ended	
	March 31,	
	2022	2021
Cost of revenue	\$ —	\$ 14
Engineering and product development	68	149
Marketing and sales	199	353
General and administrative	388	419
	<u>\$ 655</u>	<u>\$ 935</u>

As of March 31, 2022, there was approximately \$3.9 million of total unrecognized compensation cost related to unvested options and restricted stock. That cost is expected to be recognized over a weighted average period of 1.82 years.

The Company granted 0 and 22,488 shares of restricted stock during the three-month periods ended March 31, 2022 and 2021, respectively.

The Company's restricted stock awards typically vest in either one year or three equal annual installments with the first installment vesting one year from the grant date. All of the Company's restricted stock grants in 2021 had time-based vesting requirements. The grant date fair value for restricted stock awards is based on the quoted market value of Company stock on the grant date.

The Company's aggregate intrinsic value for stock options and restricted stock outstanding is as follows (in thousands):

Aggregate intrinsic value	As of March 31,	
	2022	2021
Stock options	\$1,311	\$29,305
Restricted stock	—	672

The Company issued 22,833 shares of common stock upon the exercise of outstanding stock options in the three-month period ended March 31, 2022. The Company received cash proceeds of approximately \$66,000 in the three-month period ended March 31, 2022. The intrinsic value of 20,000 restricted shares that vested in the three months ended March 31, 2021 was \$0.3 million.

Employee Stock Purchase Plan

In December 2019, the 2019 Employee Stock Purchase Plan ("ESPP") was adopted by the Company's Board of Directors (the "Board") and approved by stockholders, effective January 1, 2020. The ESPP provides for the issuance of up to 950,000 shares of common stock, subject to adjustment in the event of a stock split, stock dividend or other change in the Company's capitalization. The ESPP may be terminated or amended by the Board at any time. Certain amendments to the ESPP require stockholder approval.

Substantially all of the Company's employees whose customary employment is for more than 20 hours a week are eligible to participate in the ESPP. Any employee who owns 5% or more of the voting power or value of the Company's shares of common stock is not eligible to participate in the ESPP.

Any eligible employee can enroll in the ESPP as of the beginning of a respective quarterly accumulation period. Employees who participate in the ESPP may purchase shares by authorizing payroll deductions of up to 15% of their base compensation during an accumulation period. Unless the participating employee withdraws from participation, accumulated payroll deductions are used to purchase shares of common stock on the last business day of the accumulation period (the "Purchase Date") at a price equal to 85% of the lower of the fair market value on (i) the Purchase Date or (ii) the first day of such accumulation period. Under applicable tax rules, no employee may purchase more than \$25,000 worth of common stock, valued at the start of the purchase period, under the ESPP in any calendar year.

The Company issued 9,381 shares under the ESPP in the three-month period ended March 31, 2022. The Company recorded approximately \$10,000 of stock-based compensation expense pursuant to ESPP for the three-month period ended March 31, 2022. The next accumulation period under the ESPP commenced on January 31, 2022 and ended on March 31, 2022, and the related shares purchased by the participants were issued in April 2022. As of March 31, 2022, the Company recorded a liability of approximately \$33,000 related to employee withholdings in connection with the ESPP accumulation period ended March 31, 2022, which was included as a component of accrued expenses and other current liabilities.

Note 11 - Income Taxes

The Company had no material unrecognized tax benefits and a deferred tax liability of approximately \$6,000 related to tax amortizable goodwill at March 31, 2022. No other adjustments were required under ASC 740, "Income Taxes." The Company does not expect that its unrecognized tax benefits will materially increase within the next 12 months. The Company did not recognize any interest or penalties related to uncertain tax positions at March 31, 2022.

The Company files United States federal income tax returns and income tax returns in various states and local jurisdictions. The Company's three preceding tax years remain subject to examination by federal and state tax authorities. In addition, because the Company has net operating loss carry-forwards, the Internal Revenue Service and state jurisdictions are permitted to audit earlier years and propose adjustments up to the amount of net operating loss generated in those years. The Company is not currently under examination by any federal or state jurisdiction for any tax years.

Note 12 – Segment Reporting

Operating segments are the components of the Company's business for which separate financial information is available that is evaluated regularly by the chief operating decision maker ("CODM") in deciding how to allocate resources and in assessing performance. The Company's CODM is the chief executive officer. The Company's operating segments are generally organized by the type of product or service offered and by geography. Each reportable segment generates revenue from the sale of medical equipment and related services and/or sale of supplies. The Company has determined there are two segments: Detection and Therapy.

The Detection segment consists of the Company's advanced image analysis and workflow products, and the Therapy segment consists of the Company's radiation therapy products, and related services. The primary factors used by the Company's CODM to allocate resources are based on revenues, gross profit, operating income or loss, and earnings or loss before interest, taxes, depreciation, amortization, and other specific and non-recurring items of each segment. Included in segment operating income are stock compensation, amortization of technology and depreciation expense. There are no intersegment revenues.

The Company does not track its assets by operating segment and the CODM does not use asset information by segment to allocate resources or make operating decisions.

Segment revenues, gross profit, segment operating income or loss, and a reconciliation of segment operating income or loss to GAAP loss before income tax is as follows (in thousands):

	Three Months Ended	
	March 31,	
	2022	2021
Segment revenues:		
Detection	\$ 5,521	\$ 5,719
Therapy	2,002	2,925
Total Revenue	<u>\$ 7,523</u>	<u>\$ 8,644</u>
Segment gross profit:		
Detection	\$ 4,661	\$ 4,725
Therapy	651	1,564
Segment gross profit	<u>\$ 5,312</u>	<u>\$ 6,289</u>
Segment operating income (loss):		
Detection	\$ 622	\$ 941
Therapy	(1,209)	(312)
Segment operating income (loss)	<u>\$ (587)</u>	<u>\$ 629</u>
General, administrative, depreciation and amortization expense	<u>\$(2,935)</u>	<u>\$(2,162)</u>
Interest expense	(9)	(112)
Other (expense) income	(13)	2
Loss before income tax	<u><u>\$(3,544)</u></u>	<u><u>\$(1,643)</u></u>

Note 13 – Commitments and Contingencies

Other Commitments

The Company is obligated to pay approximately \$5.8 million for firm purchase obligations to suppliers for future product and service deliverables and \$0.2 million for minimum royalty obligations.

Litigation

The Company may be a party to various legal proceedings and claims arising out of the ordinary course of its business. Although the final results of all such matters and claims cannot be predicted with certainty, the Company currently believes that there are no current proceedings or claims pending against it the ultimate resolution of which would have a material adverse effect on its financial condition or results of operations, other than as set forth above. However, should the Company fail to prevail in any legal matter or should several legal matters be resolved against the Company in the same reporting period, such matters could have a material adverse effect on the Company's operating results and cash flows for that particular period. In all cases, at each reporting period, the Company evaluates whether or not a potential loss amount or a potential range of loss is probable and reasonably estimable under ASC 450, "Contingencies." Legal costs are expensed as incurred.

Note 14 – Subsequent Events

The Company has evaluated events and transactions subsequent to the balance sheet date to the date of the filing and is not aware of any events or transactions that occurred subsequent to the balance sheet date that would require recognition or disclosure in the consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain information included in this Item 2 and elsewhere in this Form 10-Q that are not historical facts contain statements that may be deemed "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve or may involve a number of known and unknown risks, uncertainties and other factors that could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievement expressed or implied by such forward looking statements. These risks and uncertainties include, but are not limited to the following: the continuing impact of the COVID-19 pandemic, the continuing impact of military and political conflict in Eastern Europe the ability to achieve business and strategic objectives, the risks of uncertainty of patent protection, the impact of supply and manufacturing constraints or difficulties, uncertainty of future sales levels, protection of patents and other proprietary rights, the impact of supply and manufacturing constraints or difficulties, product market acceptance, possible technological obsolescence of products, increased competition, litigation and/or government regulation, changes in Medicare reimbursement policies, risks relating to our existing and future debt obligations, competitive factors, the effects of a decline in the economy or markets served by the Company, and other risks detailed in this report and in the Company's other filings with the United States Securities and Exchange Commission (the "SEC"). The words "believe", "plan", "intend", "expect", "estimate", "anticipate", "likely", "seek", "should", "would", "could" and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date the statement was made. Except as required by law, we undertake no obligation to update any such forward-looking statements to reflect events or circumstances after the date of such statements.

Unless the context otherwise requires, the terms "iCAD", the "Company", "we", "our", "registrant", and "us" mean iCAD, Inc. and its consolidated subsidiaries.

Results of Operations

Overview

iCAD, Inc. is a global medical technology company providing innovative cancer detection and therapy solutions. The Company reports in two segments: Detection and Therapy.

In the Detection segment, the Company's solutions include (i) advanced image analysis and workflow solutions that enable healthcare professionals to better serve patients by identifying pathologies and pinpointing the most prevalent cancers earlier, and (ii) a solutions suite of high-performance, Artificial Intelligence and Computer-Aided Detection (CAD) systems and workflow solutions for 2D and 3D mammography, Magnetic Resonance Imaging (MRI) and Computed Tomography (CT) that focus on cancer detection, breast density assessment, and short-term cancer risk estimation.

In the Therapy segment, the Company offers the Xoft System, an isotope-free cancer treatment platform technology. The Xoft System can be used for the treatment of early-stage breast cancer, endometrial cancer, cervical cancer and nonmelanoma skin cancer and is in clinical studies for treatment of brain cancers.

The Company's headquarters are located in Nashua, New Hampshire, with a manufacturing facility in New Hampshire, an operations, research, development, manufacturing and warehousing facility in San Jose, California, and an office in Lyon, France.

COVID-19 Impact

On March 12, 2020, the World Health Organization declared COVID-19 to be a pandemic. In an effort to contain and mitigate the spread of the COVID-19 pandemic, the United States and most countries of the world have imposed some level of unprecedented restrictions on travel, and there have been business closures and a substantial reduction in economic activity in countries that have had significant outbreaks of COVID-19. As a provider of devices and services to the health care industry, the Company's operations have been materially affected in all periods presented. Significant uncertainty remains as to the continuing impact of the COVID-19 pandemic on the Company's operations and on the global economy. It is currently not possible to predict how long the pandemic will last or the time that it will take for economic activity to return to prior levels. The COVID-19 pandemic has resulted in significant financial market volatility and uncertainty. A continuing or worsening level of market disruption and volatility seen since the start of the pandemic will have an adverse effect on the Company's ability to access capital, on the Company's business, results of the Company's operations and financial condition, and on the market price of the Company's common stock. The Company's results for the years ended December 31, 2021 and 2020, as well as all quarterly results beginning with the first quarter of 2020 through the first quarter of 2022, reflect a negative impact from the COVID-19 pandemic, including but not limited to healthcare customers and potential customers providing additional focus on COVID-19; pandemic-related public health impacts, including significant shifts in workforce availability and priorities, on customer, supplier, and iCAD's business processes; and effects on healthcare customers and potential customers of pandemic related supply chain issues. The Company's quarterly results for the quarter ending June 30, 2022, and possibly future quarters, could reflect a continuing negative impact from the COVID-19 pandemic for similar or additional reasons.

The Company believes that its current liquidity and capital resources are sufficient to sustain operations through at least the next 12 months, primarily due to cash on hand of \$29.7 million at March 31, 2022 and anticipated revenue and cash collections. However, the resurgence of the COVID-19 pandemic could affect the Company's liquidity and capital resources.

Eastern European Conflict Impact

In late February 2022, Russian military forces launched significant military action against Ukraine. Sustained conflict and disruption in the region is likely. The aggregate impact to Eastern Europe and Europe as a whole, as well as actions taken by other countries, including new and stricter sanctions by the United States, Canada, the United Kingdom, the European Union, and other countries and organizations against officials, individuals, regions, and industries in Russia, Belarus and Ukraine, and each country's potential response to such sanctions, tensions and military actions, is not knowable at this time, and could have a material adverse effect on the Company, its business and operations. Any such material adverse effect from the conflict and enhanced sanctions activity may disrupt the Company's sales to customers in the region. Prolonged unfavorable economic conditions or uncertainty may have an adverse effect on the Company's sales and profitability. For the fiscal year ended 2021, approximately 8.6% of the Company's total revenue and approximately 39.0% of the Company's export revenue was derived from customers located in Europe.

Critical Accounting Estimates

The Company's discussion and analysis of its financial condition, results of operations, and cash flows are based on the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States.

The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates these estimates, including those related to revenue recognition, allowance for doubtful accounts, inventory valuation and obsolescence, intangible assets, goodwill, income taxes, contingencies, and litigation. Additionally, the Company uses assumptions and estimates in calculations to determine stock-based compensation, and evaluation of litigation. The Company bases its estimates on historical experience and on various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Due to the COVID-19 pandemic and its lingering impact, global armed conflicts and related political uncertainty, as well as dramatic inflation, there has been uncertainty and disruption in the global economy and financial markets. The Company is not aware of any specific event or circumstance that would require an update to its estimates or judgments or a revision of the carrying value of its assets or liabilities as of the date of issuance of this Quarterly Report on Form 10-Q. These estimates may change, as new events occur, and additional information is obtained. Actual results could differ materially from these estimates under different assumptions or conditions.

Other than as described herein, there have been no additional material changes to our critical accounting policies as discussed in our 2021 Annual Report on Form 10-K (the "2021 10-K"). For a comprehensive list of the Company's critical accounting policies, reference should be made to the 2021 10-K.

Three months ended March 31, 2022 compared to three months ended March 31, 2021.**Revenue: (in thousands)***Three months ended March 31, 2022 and 2021:*

	<u>2022</u>	<u>2021</u>	<u>Change</u>	<u>% Change</u>
Detection revenue				
Product revenue	\$3,864	\$4,161	\$ (297)	(7.1)%
Service and supplies revenue	1,657	1,558	99	6.4%
Subtotal	<u>5,521</u>	<u>5,719</u>	<u>(198)</u>	<u>(3.5)%</u>
Therapy revenue				
Product revenue	696	1,396	(700)	(50.1)%
Service and supplies revenue	1,306	1,529	(223)	(14.6)%
Subtotal	<u>2,002</u>	<u>2,925</u>	<u>(923)</u>	<u>(31.6)%</u>
Total revenue	<u>\$7,523</u>	<u>\$8,644</u>	<u>\$(1,121)</u>	<u>(13.0)%</u>

Total revenue decreased by approximately \$1.1 million, or 13.0%, from \$8.6 million for the three months ended March 31, 2021 to \$7.5 million for the three months ended March 31, 2022. The change is due to decreases in Detection revenue of \$0.2 million and Therapy revenue of \$0.9 million, respectively.

Detection product revenue decreased by approximately \$0.3 million, or 7.1%, from \$4.2 million for the three months ended March 31, 2021 to \$3.9 million for the three months ended March 31, 2022. The change is due to a decrease of \$1.1 million in direct customer revenue related to ongoing COVID related restrictions early in the quarter combined with impact from the reorganization and refocusing of the U.S. commercial organization offset by a \$0.8 million increase in original equipment manufacturer customer revenue.

Detection service and supplies revenue, which is primarily sold to direct customers, increased by \$0.1 million, or 6.4%, from \$1.6 million in the three months ended March 31, 2021 to \$1.7 million in the three months ended March 31, 2022.

Therapy product revenue decreased by \$0.7 million, or 50.1%, from \$1.4 million for the three months ended March 31, 2021 to \$0.7 million for the three months ended March 31, 2022. The decline in Therapy product sales was largely due to the timing of a significant additional capital raise by one of our skin distributors.

Therapy service and supplies revenue decreased by approximately \$0.2 million, or 14.6%, from \$1.5 million for the three months ended March 31, 2021 to \$1.3 million for the three months ended March 31, 2022. The decline was largely due to reduced sales of sources for the Axxent system and a temporary reduction in average selling price for certain supplies to certain customers, including clinical trial participants.

Cost of Revenue and Gross Profit: (in thousands)*Three months ended March 31, 2022 and 2021:*

	<u>2022</u>	Three months ended March 31,

Therapy gross profit	651	1,564	(913)	(58.4)%
Gross profit	<u>\$5,312</u>	<u>\$6,289</u>	<u>\$ (977)</u>	<u>(15.5)%</u>

Gross profit for the three months ended March 31, 2022 was approximately \$5.3 million, or 70.6% of revenue, as compared to \$6.3 million, or 72.8% of revenue, for the three months ended March 31, 2021. Detection gross profit percentage increased from 82.6% for the three months ended March 31, 2021 to 84.4% for the three months ended March 31, 2022. Therapy gross profit percentage decreased from 53.5% for the three months ended March 31, 2021 to 32.5% for the three months ended March 31, 2022. Detection gross profit represented 75.1% of total Company gross profit for the three months ended March 31, 2021 compared to 87.7% for the three months ended March 31, 2022.

Cost of products decreased by approximately \$0.3 million, or 22.9%, from \$1.4 million for the three months ended March 31, 2021 to \$1.1 million for the three months ended March 31, 2022. Cost of product revenue as a percentage of product revenue was approximately 25.4% for the three months ended March 31, 2021 as compared to 23.8% for the three months ended March 31, 2022. The product mix in the three-month period ended March 31, 2022 compared to the same period in 2021 included more Detection products, which have a lower relative cost of sales.

Cost of service and supplies increased by approximately \$0.1 million from \$0.9 million for the three months ended March 31, 2021 to \$1.0 million for the three months ended March 31, 2022. Cost of service and supplies revenue as a percentage of service and supplies revenue was approximately 28.1% for the three months ended March 31, 2021 as compared to 35.4% for the three months ended March 31, 2022. The cost of service and supplies as a percentage of revenue increased primarily as a result of a temporary reduction in average selling price for certain supplies to certain customers, including clinical trial participants.

Amortization and depreciation, which relates primarily to acquired intangible assets and depreciation of machinery and equipment, was approximately \$0.1 million for each of the three months ended March 31, 2022 and 2021.

Operating Expenses: (in thousands)*Three months ended March 31, 2022 and 2021:*

	Three months ended March 31,			
	2022	2021	Change \$	Change %
Operating expenses:				
Engineering and product development	\$2,275	\$2,192	\$ 83	3.8%
Marketing and sales	3,565	3,424	141	4.1%
General and administrative	2,931	2,151	780	36.3%
Amortization and depreciation	63	55	8	14.5%
Total operating expenses	<u>\$8,834</u>	<u>\$7,822</u>	<u>\$ 1,012</u>	<u>12.9%</u>

Operating expenses increased by approximately \$1.0 million, or 12.9%, from \$7.8 million in the three months ended March 31, 2021 to \$8.8 million in the three months ended March 31, 2022. The increase is largely due to limited employee-related expenses in the three-month period ended March 31, 2021 due to COVID-19 pandemic response and the subsequent restoration of the organization and resumption of activity in later 2021 resulting in higher employee related expenses, including travel, in the three-month period ended March 31, 2022.

Engineering and Product Development. Engineering and product development costs increased slightly from \$2.2 million for the three months ended March 31, 2021 to \$2.3 million for the three months ended March 31, 2022. The increase was primarily related to higher employee costs in 2022 offset by a reduction in external service and clinical study expenses.

Marketing and Sales. Marketing and sales expenses increased by approximately \$0.2 million, or 4.1%, from \$3.4 million in the three months ended March 31, 2021 to \$3.6 million in the three months ended March 31, 2022. Detection marketing and sales expenses increased by approximately \$0.2 million from \$2.4 million in the three months ended March 31, 2021 to \$2.6 million in the three months ended March 31, 2022. The increase was primarily due to increased employee-related costs associated with the U.S. commercial group reorganization and refocusing and increased travel costs resulting from the reduction of pandemic travel restrictions. Therapy marketing and sales expenses remained flat at \$1.0 million for each of the three months ended March 31, 2022 and 2021, respectively.

General and Administrative. General and administrative expenses increased by approximately \$0.8 million, or 36.3%, from \$2.1 million in the three months ended March 31, 2021 to \$2.9 million for the three months ended March 31, 2022. The increase is due to higher personnel costs partially offset by reduced external services as multiple functions were brought in-house, recruiting costs associated with the U.S. commercial group reorganization and refocusing, increased travel costs, and an increase of \$0.3 million to the allowance for doubtful accounts.

Amortization and Depreciation. Amortization and depreciation, which relates primarily to acquired intangible assets and depreciation of machinery and equipment, was approximately \$0.1 million for each of the three months ended March 31, 2022 and 2021.

Other Income and Expense: (in thousands)*Three months ended March 31, 2022 and 2021:*

	Three months ended March 31,			
	<u>2022</u>	<u>2021</u>	<u>Change \$</u>	<u>Change %</u>
Interest expense	\$ (9)	\$ (112)	\$ 103	(92.0)%
Other income (expense)	(13)	2	(15)	(750.0)%
	<u>\$ (22)</u>	<u>\$ (110)</u>	<u>\$ 88</u>	<u>(80.0)%</u>
Tax expense	\$ (1)	\$ —	\$ (1)	0.0%

Interest expense. Interest expense decreased by approximately \$0.1 million, or 92.0%, from \$0.1 million for the three months ended March 31, 2021 to approximately \$9,000 for the three months ended March 31, 2022. The decrease was due to the Company retiring the Loan agreement with Western Alliance Bank on April 27, 2021.

Other income. Other expense increased by approximately \$15,000, or 750.0%, from other income of \$2,000 for the three months ended March 31, 2021 to other expense of \$13,000 for the three months ended March 31, 2022.

Tax expense. Tax expense increased by approximately \$1,000 due to an increase in the deferred tax liability related to goodwill.

Liquidity and Capital Resources

The Company believes that its cash and cash equivalents balance of \$29.7 million as of March 31, 2022, and projected cash balances are sufficient to sustain operations through at least the next 12 months. The Company's ability to generate cash adequate to meet its future capital requirements will depend primarily on operating cash flow. If sales or cash collections are reduced from current expectations, or if expenses and cash requirements are increased, the Company may require additional financing, although there are no guarantees that the Company will be able to obtain the financing if necessary. In addition, the resurgence of the COVID-19 pandemic could affect our liquidity. The Company will continue to closely monitor its liquidity and the capital and credit markets.

The Company had net working Capital of \$33.5 million at March 31, 2022. The ratio of current assets to current liabilities at March 31, 2022 and December 31, 2021 was 3.32 and 3.36, respectively.

	For the three months ended March 31,	
	2022	2021
	(in thousands)	
Net cash used for operating activities	\$ (4,449)	\$ (3,563)
Net cash used for investing activities	(161)	(262)
Net cash provided by financing activities	126	23,546
(Decrease) increase in cash and cash equivalents	<u>\$ (4,484)</u>	<u>\$ 19,721</u>

Net cash used for operating activities for the three months ended March 31, 2022 was \$4.4 million, compared to \$3.6 million for the three months ended March 31, 2021. The net cash used for operating activities for the three months ended March 31, 2022 resulted primarily from the Company's net loss and working capital changes resulting from increases in accounts receivable and inventory, which increased in order to de-risk supply chain elongation, offset by a decrease in prepaid and other assets and decreases in accounts payable and accrued expenses. We expect that net cash used for or provided by operating activities to fluctuate in future periods as a result of a number of factors, including fluctuations in our operating results, the timing of when we recognize revenue, collections of accounts receivable, inventory expansion due to supply chain risk, and the timing of other payments.

Net cash used for investing activities for the three months ended March 31, 2022 was \$161,000, compared to \$262,000 for the three months ended March 31, 2021. The net cash used for investing activities for the three months ended March 31, 2022 and 2021 is primarily for purchases of property and equipment.

Net cash provided by financing activities for the three months ended March 31, 2021 was \$0.1 million, compared to \$23.6 million for the three months ended March 31, 2021. Net cash provided by financing activities for the three months ended March 31, 2022 is due to cash of \$126,000 from the issuance of common stock pursuant the Company's stock option and employee stock purchase plans. Net cash provided by financing activities for the three months ended March 31, 2021 is from the underwritten public offering of 1,393,738 shares of the Company's common stock at an offering price of \$18.00 per share resulting in net proceeds of approximately \$23.2 million and \$0.3 million from the issuance of common stock pursuant the Company's stock option and employee stock purchase plans.

Recent Accounting Pronouncements

See Note 1 to the Condensed Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company believes that it is not subject to material foreign currency exchange rate fluctuations, as substantially all of its sales and expenses are denominated in the U.S. dollar. The Company does not hold derivative securities and has not entered into contracts embedded with derivative instruments, such as foreign currency and interest rate swaps, options, forwards, futures, collars or warrants, either to hedge existing risks or for speculative purposes.

Item 4. Controls and Procedures

The Company's management, with the participation of its principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, as of March 31, 2022, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective at a reasonable level of assurance.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. The Company conducts periodic evaluations to enhance, where necessary, its controls and procedures.

The Company's principal executive officer and principal financial officer conducted an evaluation of the Company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) and have determined there are no changes in its internal controls over financial reporting during the quarter ended March 31, 2022 that have materially affected or which are reasonably likely to materially affect internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors:

We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially adversely affect our operations. In addition to the risk factors below, factors that have affected our Company are described in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2021 as filed with the SEC on March 29, 2022 and are incorporated by reference herein.

The Company expects the novel coronavirus (COVID-19) pandemic, including the emergence of new variants, to have a significant effect on the Company's results of operations. In addition, the pandemic has resulted in significant financial market volatility, and its impact on the global economy appears to be significant. A continuation or worsening of the pandemic will have a material adverse impact on the Company's business, results of operations and financial condition and on the market price of the Company's common stock.

As a provider of devices and services to the health care industry, the Company's operations have been materially affected, and may continue to be impacted, by the COVID-19 pandemic. Beginning with the first quarter of 2020 through the first quarter of 2022, the COVID-19 pandemic has presented a number of challenges and risks for the Company's business, including, but not limited to the following: decreased product demand due to reduced numbers of in-person meetings with potential clients; potential clients' singular focus on surging COVID-19 infection rates following the emergence of the Omicron variant, causing attention to be diverted from purchasing decisions; pandemic-related public health impacts, including significant shifts in workforce availability and priorities, on customer, supplier, and iCAD's business process; supply chain interruptions; disruptions to the Company's clinical trials; challenges operating in a virtual work environment; impacts resulting from travel limitations and mobility restrictions; and other challenges presented by disruptions to the Company's normal operations in response to the pandemic, as well as uncertainties regarding the duration and severity of the pandemic on the global economy and the Company's operations, and the unpredictable and periodic emergence of new variants of the COVID-19 virus.

The COVID-19 pandemic has resulted in significant financial market volatility and uncertainty. A continuing or worsening level of market disruption and volatility observed since the start of the pandemic will have an adverse effect on the Company's ability to access capital, on its business, results of operations and financial condition, and on the market price of the Company's common stock. Although the Company does not provide guidance to investors relating to the Company's results of operations, the Company's quarterly results for the quarter ending June 30, 2022, and possibly future quarters, could reflect a continuing negative impact from the COVID-19 pandemic for similar or additional reasons.

The Company's exposure to trade accounts receivable losses may increase if its customers are adversely affected by changes in healthcare laws, coverage, and reimbursement, economic pressures or uncertainty associated with local or global economic recessions, disruption associated with the current COVID-19 pandemic, or other customer-specific factors. The Company has historically not experienced significant trade account receivable losses, but it is possible that there could be a material adverse impact from potential adjustments of the carrying amount of trade account receivables as hospitals' cash flows are impacted by their response to the COVID-19 pandemic.

Instability in geographies where the Company has operations and personnel or where the Company derives revenue could have a material adverse effect on the Company's business, customers, operations and financial results.

Economic, civil, military and political uncertainty may arise or increase in regions where the Company operates or derives revenue. Further, countries from which the Company derives revenue may experience military action and/or civil and political unrest; may be subject to government export controls, economic sanctions, embargoes, or trade restrictions; and experience currency, inflation, and interest rate uncertainties. For the fiscal year ended 2021, approximately 8.6% of the Company's revenue was derived from customers located in Europe, and approximately 39.0% of the Company's export revenue was derived from customers located in Europe. In late February 2022, Russian military forces launched significant military action against Ukraine. Sustained conflict and disruption in the region is likely. The aggregate impact to Eastern Europe and Europe as a whole, as well as actions taken by other countries, including new and stricter sanctions by the United States, Canada, the United Kingdom, the European Union, and other countries and organizations against officials, individuals, regions, and industries in Russia, Belarus and Ukraine, and each country's potential response to such sanctions, tensions and military actions, is not knowable at this time, and could have a material adverse effect on the Company, its business and operations. Any such material adverse effect from the conflict and enhanced sanctions activity may disrupt the Company's sales to customers in the region. Prolonged unfavorable economic conditions or uncertainty may have an adverse effect on the Company's sales and profitability.

EXHIBIT 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, Stacey Stevens, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2022 of iCAD, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

EXHIBIT 31.2

CERTIFICATION OF CHIEF FINANCIAL OFFICER

I, Charles R. Carter, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2022 of iCAD, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
